Axklo

Frequently asked questions

Answers about Axklo, Axklo Play and Axklo Apps.

Axklo

What is Axklo?

Axklo is a **studio**, a team, a group of dreamers from all over the world. We make **Axklo Play** and **Axklo Apps**, and we try to make what exists better, make new things, and fix what others left broken.

What does community over capital mean?

Investors matter and we don't turn them away. But a foundation shouldn't forget who holds it up. A project can keep running without investors. Without its community it can't, and investors would be the first to leave. They stay because they make money. A community stays because it's a community.

What are you making next?

Three ideas for the future: **Axklo Health**, **Axklo Education** and **Axklo Research**. None of them has launched. Research is the biggest one and we need capital before we can start it. More on the About page.

How old do I need to be?

13 or older for every Axklo product. If you're under the age of majority where you live, you need a parent or guardian's permission.

Where are the terms and privacy policy?

Each product has its **own** terms of service, privacy policy and way to report people, so check them on play.axklo.com and apps.axklo.com. The ones on this site only cover axklo.com.

How do I contact you?

Email support@axklo.com or use the contact page. For help with a product, start on that product's own site.

How can I support Axklo?

Buy us a coffee at buymeacoffee.com/axklo. It's the best way to help. More on Support Axklo.

Does this website show ads?

Yes, it may show ads through Google AdSense to help pay for things. You pick between personalised and non-personalised ads. Details in the Cookie & Advertising Policy.

Are you hiring?

We're always open to people who want to work with us. Read how it works on the Careers page.

Where do I find help if I'm struggling?

The Safety Center lists free helplines. If you or someone else is in danger right now, call your local emergency number.

Why does Axklo ask for donations?

Servers and hosting cost real money, and we want to reach our donation goal so we can set Axklo up properly. You can follow the progress on the support page.

Axklo Play

What is Axklo Play?

Axklo Play, also called just Axklo, is our **first and main product**. It's a social platform inspired by sandbox games. Talk to people, find friends, meet new people, make groups, and turn what you imagine into a playable 3D game, straight from your browser. Open it at play.axklo.com.

Do I need to install anything?

No. It runs in your browser and has no system requirements.

How do I report someone in Axklo Play?

Axklo Play has its own ways to report people. Check play.axklo.com first. If you can't sort it out there, email us.

Axklo Apps

What is Axklo Apps?

An **AI app builder**. You describe the app you want in a prompt and it builds it for you. Open it at apps.axklo.com.

Do I need to know how to code?

No. It's made for people who've never written a line of code.

What can I build with it?

The goal is real, production-ready apps with users, databases, ads and income, all from prompts. Whatever you dream up, you can try to make it real.

Where do I get help or report someone?

Axklo Apps has its own terms, privacy policy and ways to report people. Check apps.axklo.com. If that doesn't work, email us.
